**NARRATIVE**

---

On 03-19-2015 at about 1041 hours (all times approximate) I responded to a non-injury/blocking vehicle collision at the intersection of 91st Ave NE and Market Place in the city of Lake Stevens. Arriving on scene I observed two vehicles blocking the northbound lane of 91st Ave just north of the intersection of Market Place. One vehicle was facing northbound and the other vehicle was facing southbound (having two flat rear tires). Both vehicles were moved out of the roadway shortly after my arrival.

Based on evidence and statements at the scene both driver's claimed to have entered the intersection of Market Place and 91st Ave while facing a green light. There were no witnesses present who could identify the traffic light cycle at the time of impact with the two vehicles. I checked two nearby businesses at the intersection for possible video surveillance (Taco Bell and Chase Bank) and was told there was not video surveillance of the intersection. Due to the fact of having no eye witness account of the traffic light cycle I listed U1 as the vehicle that had been traveling westbound on Market Place and U2 as the vehicle that had been traveling northbound on 91st Ave NE (having no "at fault" vehicle identified at the time of the collision).

The driver of U1 stated she had been traveling westbound on Market Place and had entered the intersection while facing a green light at the same time as U2 that had been traveling northbound on 91st Ave. U1 had two juvenile passengers in the vehicle at the time of the collision.

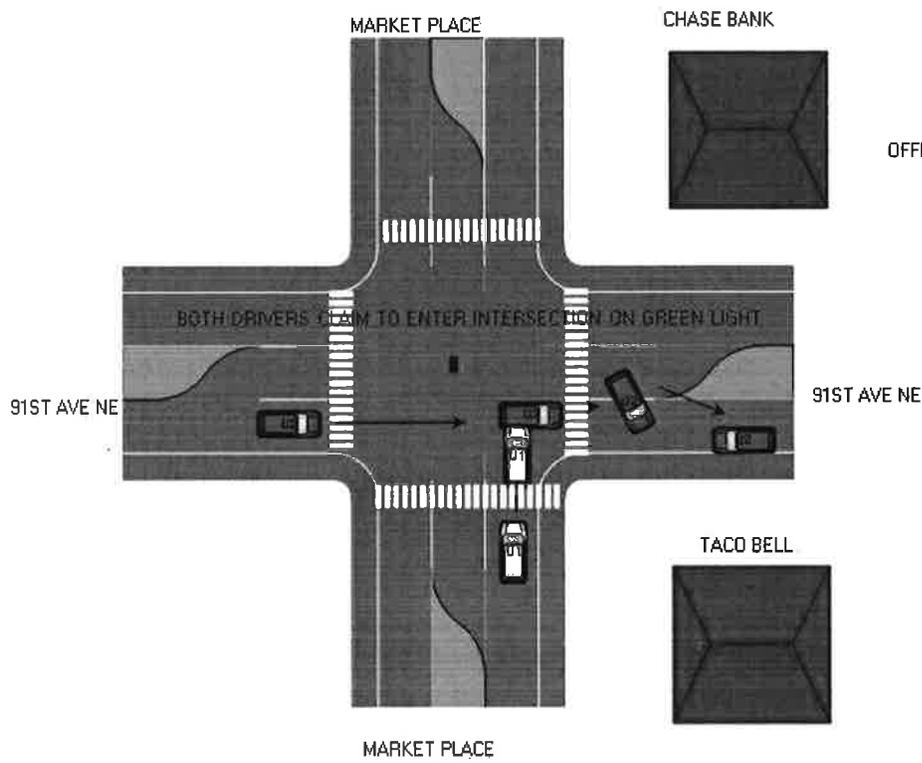

The driver of U2 stated he had been traveling northbound on 91st Ave NE and had entered the intersection while facing a green light at the same time as U1 that had been traveling westbound on Market Place.

U1 stuck the rear passenger quarter area of U2 which caused U2 to spin in a clockwise rotation (leaving a gouge in the roadway from the vehicle tire rim) and come to final rest facing southbound in the northbound lane of travel.

The driver of U2 stated as he had been approaching the intersection he had observed a vehicle turn in front of him onto northbound 91st Ave from westbound Market Place and then U1 entered the intersection without stopping.

Towards the end of my investigation while still on scene, witness Wiseman arrived and stated she had been the vehicle that had turned northbound onto 91st Ave NE from westbound Market Place just before the collision with U1 and U2. Wiseman stated she had made her right turn onto 91st Ave while facing a red light. Wiseman stated she had observed the collision in her rearview mirror, as she traveled northbound from the intersection, and that she was unable to stop due to a passenger she had with her that was unpredictable to know how the passenger would react had she stopped at the time.

Though witness Wiseman stated she had made her right turn on red it is still unknown what the traffic light cycle was on at the time of collision between U1 and U2.

As I approached the Intersection of 91st Ave and market place. I was traveling northbound on 91st Ave Approaching the marketplace Cross Street. Approx 200 ft before entering the Intersection A car made a right turn in front of me. I noted it was a <sup>unnamed</sup> risky right turn on red on that cars ~~decision~~ decision. I was not forced to decelerate but I was now <sup>entering</sup> the intersection when I saw to my right a white SUV was also entering the same Intersection. I made a maneuver to the left slightly but was struck on the back right wheel and my pathfinder was lifted in the air and I came very close to rolling onto its ~~roof~~ roof. After it landed 180 in the same lane I was traveling. Facing the opposite direction. I was watching the green light as I ~~approach~~ <sup>approach</sup> in my direction. As I approached and entered the Intersection and the lady that hit me had two children in the car and admitted that she didn't see the car in front of her make a turn on red. I believe she was distracted from a red light and
