## CURRENT CITY PROJECTS

### Highway 9 Improvements For Traffic Flow

The Washington State Department of Transportation will award a contract for four roundabouts to be constructed to help traffic flow through the City of Lake Stevens. The project is to be completed by the end of 2023.

This summer, two roundabouts are scheduled for construction. The first roundabout is at 91st Avenue N.E. and Vernon Road. The 2nd roundabout is at N. Davies Road and Vernon/Frontage Roads intersection. This project has involved multiple state and federal agencies, and an extensive permitting process to ensure wetlands are protected. It also has involved real estate purchases and relocating utilities so there is adequate right of way.

WSDOT anticipates the two larger roundabouts for the intersection of State Routes 9 and 204 will be constructed in 2023.

There will be one extended weekend closure this year. Two additional extended weekend closures are planned for next year. WSDOT is planning a public meeting for interested parties at a future date. Project status is regularly updated on WSDOT's [SR 9/SR 204 project webpage](#).

### Interim Safety Measures for Walking Lanes on 91st St SE

The City is working to improve the safety of children walking to school. Lake Stevens is applying for a Safe Routes to School grant to help fund permanent safety improvements. As an interim step, you will see raised white lane deflectors and curbs installed along the east side of 91st Avenue SE, between 4th Street SE and 8th Street SE, to clearly mark the walking lane.

### North Cove Park Phase III Updates

Mill Spur/festival street - Liquid truncated dome panels (ADA panels) were poured on the ADA ramps on the south side of the new roadway. 123rd Drive NE was also milled for an overlay next week, weather dependent. Electricians and landscapers will be onsite to install the bollards and irrigation.

Restroom/Concessionaire - Public Works is completing its final review of the plans and will submit a building permit next week for the new structure. Construction is scheduled for fall 2022.

### 91st Ave SE Project Updates

91st Ave SE at 20th St. SE - Punchlist items remain for the project and must be completed before Costco uses the new roadway as a haul route as they remobilize beginning on April 18. The City will issue a ROW permit and will gather a bond to ensure the roadway is restored to its pristine condition once Costco has finished using it to haul materials. The roadway will not be open to the public until Costco has completed the connection to the south.
