

# 91<sup>ST</sup> AVE NE STREETSCAPE REVITALIZATION

With new interchanges complete along Highway 9 and 204, the city would like your opinion on proposed street improvements for 91<sup>st</sup> Ave NE. This project is the first step to help kickstart the economic revitalization of this key shopping corridor as a “second main street.”

## Project Goals

- Create an inviting “main street” shopping district along 91st Avenue NE that better connects the retail core with the surrounding residential areas.
- Develop a more pedestrian-oriented streetscape with amenities such as wider sidewalks, seating, improved lighting, wayfinding, and public art.
- Safely accommodate bikes and vehicles moving through the corridor.

The city has partnered with KPG Psomas to present design options for this corridor with an intent of enhancing accessibility for pedestrians, cyclists and cars. Once complete this project will improve the appearance of this area for business owners, residents and visitors.

## CITIZEN PARTICIPATION IS THE KEY TO SUCCESS

### 91<sup>ST</sup> AVE NE STREETSCAPE REVITALIZATION

THE PLAN WILL IMPROVE THE SAFETY AND APPEARANCE OF THE CORRIDOR
