Event Pre-Permit Checklist

This checklist is to help you gather the necessary paperwork and information prior to filing for your event permit. You may submit drafts of items and then provide a final version 60 days before your event, as long as activities or other proposals do not substantially change. Please direct questions to Parks and Recreation using the information at the bottom of the page.

Permit Documentation:

These items need to be submitted as part of your permit package. Permits cannot be processed and reviewed without the following:

- Certificate of Insurance (see Parks Event Insurance Policy for full guidelines)
- Route maps for parades, runs, and other activity utilizing streets
- Maps outlining any road closure requests, showing closure locations and detour routes.
- Site Map with a key showing locations of all items being brought into the event, including but not limited to:
 - Beer Garden
 - EMS/First Aid Stations
 - Fencing & Barriers
 - Fire Extinguishers
 - Hand Washing Facilities
 - Garbage Bins
 - Generators
 - Operations Headquarters
 - Portable Toilets
 - Rides & Activity Structures
 - Refrigeration Facilities
 - Security Headquarters
 - Temporary Structures
 - Tents
 - Vendor Locations

Event Activities:

Please indicate if you will have any of the following at your event. These items have the potential to generate questions from permit reviewers or can result in conditions being included on your permit. Discussing them early helps to ensure these items can be approved.
